# Reflections on Singing to the Heart - 2019

I have not let you know how deeply both Rochelle and I were affected by the whole experience. It's hard to articulate, but when I got home and got up the next morning I realised I was looking at everything as though for the first time - it all seemed laden with new significance, and I trod the ground as though each footstep was almost a sacred act. I've been waxing lyrical about the whole trip to anyone who will listen ever since I got home. So thank you from my heart for creating such a transforming experience - With our love Paul

I feel very privileged to have been part of this extraordinary journey of country, culture and people of Australia. Thanks for that opportunity and your insight into our country. - Sincerely Ann Bailey

I don't seem to have the words to truly express my appreciation for your wonderful visions and your ability to manifest such amazing experiences for people! It has been one of the most significant times of my life - one of love and deep healing.- ThankYOU - blessings - Carol xx

Wow what a trip!! What an undertaking and what a wonderful outcome! We reckon on reflection and processing of the m - any varied aspects and multi layered experiences of our two week adventure it has proven to be a winner. The opportunities that you presented and the risks that you took to embark on such a dream culminated in a tremendous journey. G & B

Beyond all expectation - visually, culturally and musically. It's a trip that no one else (but Raymond) could have put together because of his knowledge and feeling for these special places and special people. I really mean that. I think that will be one of life's highlights for me. - Mary Dinnis

Thanks to your passion for Country, People & Culture our Heartland adventure was packed with experiences that cannot be easily described. Now they can see and hear for themselves - and savour at least a taste of this fortnight-long banquet. - Arohanui and many blessings from New Zealand, - Lynsey

I had been waiting to reply and thank you for a fantastic experience in the desert. I was trying to encapsulate the experience and what it meant to me. Then the video arrives and expresses so many of my thoughts and feelings. Thank you so much. Once again thanks for an unforgettable and thought provoking experience. - Regards, Peter

Thank you for what was an incredible trip. I can't imagine how much work went into organising it. It will stay close to my heart and there are many special moments that I will treasure. I could go on with superlatives but will leave it at that. - Xx Jane

The trip was really special in so many ways and was everything I had hoped for, especially our interactions with the local people. What a privilege to be able to share our music with the ladies at Hermannsburg and our time with Alison and her family. Thank you Raymond for creating the opportunity to meet members of the Aboriginal community in a place of shared friendship and mutual respect. It was deeply meaningful for me. - Lynne x

Hi Raymond, thanks very much for the video - when I got home I was unable for about 2 weeks to tell my friends much about the journey as I just dissolved in tears every time. I had just about got myself in some sort of working order and the video arrived and I was crying all over again!!! I can only imagine the energy you put into that trip and the many others that you organize and I thank you most sincerely for the experience I had and will never forget. - Anna Wright
